INTELEPEER RECEIVES 2009 NGN LEADERSHIP AWARD
FROM *NGN* MAGAZINE

IntelePeer AppworX Open Communications Platform
Honored for Outstanding Innovation

SAN MATEO, Calif. – April 28, 2009 – IntelePeer Inc., a leader in hosted on-demand rich media communications, announced today that Technology Marketing Corporation (TMC), www.tmcnet.com, has named IntelePeer AppworX™ open communications platform as a recipient of the First Annual NGN Leadership Award presented by its publication, *NGN*, www.ngnmag.com.

IntelePeer's AppworX open communications platform for applications and the company's carrier-grade network make it easy to roll out high-quality interactive voice, video, SMS, data and other rich media services that boost productivity while reducing telecommunications and operational expenses. A communications-as-a-service (CaaS) offering, IntelePeer AppworX is ideal for increasing collaboration among business application users, fostering closer connections with customers and introducing communications-enabled business processes that drive efficiency and deliver cost savings.

IntelePeer's carrier-grade infrastructure, which handles billions of voice minutes per year, ensures high-quality service through the company's redundant global peering network that features direct connections with more than 50 service providers around the globe.

"The award from *NGN* magazine illustrates the significant innovation and business benefits we deliver through the IntelePeer AppworX platform," said Charles Studt, vice president of product management for IntelePeer. "AppworX provides a great foundation to drive new revenue opportunities, streamline business processes and reduce communications expenses. We make it easy for our customers to roll out innovative voice and rich media services while eliminating high up-front costs, risks and development delays."

The NGN Leadership Award has been established to recognize outstanding achievement in the IP communications community, including outstanding products, services and technologies relating to IMS (IP multimedia subsystem) and (next generation networking) environments.

"IntelePeer has been recognized for its exceptional work in advancing IMS and NGN services and technologies, and we honor IntelePeer AppworX Open Communications Platform with an NGN Leadership Award," stated Rich Tehrani, president of TMC. "With the significant growth in next-generation network technologies, receiving this award distinguishes the company as a leader in the industry."

The complete list of 2009 NGN Leadership Award winners appears in the May/June 2009 issue of *NGN* magazine, www.ngnmag.com.

About IntelePeer
IntelePeer, www.IntelePeer.com, a leader in hosted on-demand rich media communications, enables carriers, businesses and software vendors to easily deliver voice and multimedia capabilities to any phone or network-connected device – without incurring up-front capital costs. Through our innovative, communications-as-a-service (CaaS) platform, IntelePeer AppworX™, our SuperRegistry™ and our extensive peering grid, we provide our customers with the platform to offer high-quality interactive voice, video, SMS, data and other rich-media services while providing significant cost savings for their telecommunication expenditures. Through intuitive APIs, Web Services, and brandable widgets and applets, IntelePeer removes the complexity of telecom and opens network functions to mainstream developers who are creating voice-Web "mashups" and communications-enabled business processes embedded into enterprise, webcasting, social networking, entertainment and e-commerce applications. Business professionals who use customer relationship management (CRM) software and common desktop applications such as calendaring and contact management also rely on us for instant access to bridge-to-services, voice blast, video blast, text-to-speech, conferencing and other features that enable communications-enhanced business processes that drive efficiency and deliver cost savings. Based in San Mateo, Calif., we operate our own carrier-grade network carrying more than 7 billion minutes, with worldwide coverage delivered through an IP and TDM peering grid with over 50 leading service provider peering partners. IntelePeer is privately held and is backed by venture capital firms VantagePoint Venture Partners, Kennet Venture Partners, NorthCap Partners and EDF Ventures.
